## ADVISORY ACTION

Continuation of Item 2. NOTE: The proposed amendments filed 12/27/01 will not be entered because they raise new issues that would require further consideration and/or search, particularly the added claim limitations "wherein the step of pressing is performed when said first layer of non-metallic is in its dimensionally stable state" in Claim 36 and "which has been replicated by a method according to claim 36" in Claim 54; wherein the added limitation of Claim 36 possibly raises the issue of new matter. As noted, Claims 66 and 67 are additional claims presented without canceling a corresponding number of finally rejected claims.

Continuation of Item 5. Applicant's arguments have been considered but are moot given that they are directed to the proposed amendment submitted 12/27/01 that has not been entered for the reasons previously noted.
